18.3.4 Assessing the U.S Intelligence Community's Annual Threat Report for 2022

(2022-03-24 11:13)

[1]

In the most recently released "[2]U.S Intelligence Community's Annual Threat Report for 2022"

the U.S Intelligence Community states that China remains the U.S's most sophisticated and

relevant cyber adversary which possesses the necessary sophistication to target the country

both using cyber espionage and attacks against U.S critical infrastructure.

20802

An excerpt:

" *We assess that China presents the broadest, most active, and persistent cyber espionage*

threat to U.S. Government and private sector networks. China's cyber pursuits and export

of related technologies increase the threats of attacks against the U.S. homeland, suppres-

sion of U.S. web content that Beijing views as threatening to its control, and the expansion of

technology-driven authoritarianism globally. "

The report actively discusses Iran, North Korea, China and Russia in a variety of dangerous

aspects to U.S National Security with the report courtesy of the U.S Intelligence Community.

What the report also emphasizes on is the use of malicious influence both in the cyber domain

and internationally where the U.S publicly acknowledges in its report that China is attempting

to mimic Russia on its way to launch foreign influence operations serving the needs of China

by using publicly disclosed training material and real-life case studies courtesy of Russia in

terms of foreign influence operations which could set a dangerous precedent in case China

fully realizes the vast potential of Russian's capabilities in foreign influence operations that

also includes the cyber domain on its way to dominate a country including the information and

electromagnetic spectrum which also includes the launching of foreign influence campaigns

both in real-life and virtually.

18.3.5 Israel Blocks Ukraine From Purchasing Pegasus Spyware (2022-03-24 11:14)

[1]

20803

According to the [2]Guardian Israel blocked Ukraine from purchasing the Pegasus spyware

from the infamous NSO Group vendor of lawful surveillance hacking tools.

Not surprisingly this is a bit over-exaggerated and self-serving statement that actually does

more PR harm other than good despite the fact that the article is mentioning Israel’s "[3]2007

Defense Export Control Act" which prevents the country from selling access to lawful surveil-

lance type of hacking tools to other countries.

Appreciate the rhetoric. Since when does a country that’s basically denying other countries

the opportunity to buy commercial lawful surveillance hacking tools from them is positioning

itself as as a market-leading provider of commercial lawful surveillance hacking tools? Basically

never. Long story short any country that wants to monitor journalists or basically launch lawful

surveillance campaigns using hacking tools against individuals can basically outsource the

malicious software "know-how" to local companies that develop such type of tools.

Positioning yourself as a market and country-tolerated vendor of commercial and market lead-

ing lawful surveillance hacking tools is prone to result in negative publicity and basically turn

and position the company as a mockery among hardcore vendors of commercial and lawful

surveillance hacking tools that also includes the bad guys including other nations that develop

and actually present such releases on the market.

18.3.6 U.S

Army

Launches

the

Cyber

Military

Intelligence

Group

(CMIG)

(2022-03-24 11:16)

[1]

The U.S Army has recently [2]announced the development and public launch of the Cyber

Military Intelligence Group (CMIG) which aims to use both proprietary sources including public

sources on its way to build situational awareness in the world of cyber warfare and malicious

and fraudulent adversaries.

An excerpt:

" *The CMIG's function is to direct, synchronize and coordinate intelligence support to informa-*

tion advantage, cyberspace, information operations and electronic warfare operations. "

Possible use for the newly formed and developed U.S Army cyber military intelligence group

could possibly include the use of public cyber threat intelligence sources which the group could

20804

use to further enrich and properly respond to both using public sources and proprietary and

possibly sensitive and classified databases.

For you there's no such thing as a link you can click on? Guess what? I won't tell you. Guess

what again? The word is this - a basic link which you’re forbidden from clicking on it. It’s called

the "[1]The Twilight Zone". Good luck in living there and don’t forget to spend the rest of your

time watching the Outer Limits. You wish!

18.3.8 Profiling a Currently Active High-Profile Cybercriminals Portfolio of

Ransomware-Themed Extortion Email Addresses - Part Five (2022-03-29 04:13)

[1]

I've decided to continue the "[2]Profiling a Currently Active High-Profile Cybercriminals Portfolio

of Ransomware-Themed Extortion Email Addresses - Part Four" blog post series and I've decided

to issue yet another update in terms of currently active ransomware themed personal email

address accounts.

Sample list of currently active ransomware themed email address accounts includes:

All Warfare is Based on Deception
At a Pentagon's C4ISR Center
Such dare interference with DoD's cyber assets is unacceptable. Initiate an immediate traceback!
Our NIDS are detecting numerous traffic anomalies at some of our mailsevers.
Done! It's the Chinese.
Beijing, PRC's Cyberint Unit
Outstanding cyber deception! While they concentrate on the mail servers, we'll transmit back the data obtained from the infected hosts.
Which we bought from the Russian to faciliate OSINT through botnets. "Ensure your victory before starting a battle", said Sun Tzu!
Moscow, Botnet masters' meeting
The Chinese are getting smarter Andrei. Last month they bought access to .mil and .gov infected hosts only, and look at this Pentagon puppet show now
It's called "segmenting the attack population" Yuri. Perhaps we should print out new brochures..

3XL
partnership
О КОМПАНИИ
НАШИ ПРОГРАММЫ
КОНТАКТЫ
КОНКУРС
Кто мы?
Кроме того, что мы уже не первый год делаем партнерские программы для ВАС, мы такие же вебмастера как и Вы. Нас волнуют те же вопросы. Как получить максимальную доходность со своего трафа? Как получить стабильный доход? Мы знаем что для Вас важна постоянная поддержка продукта, мы прекрасно понимаем что Вы хотите получать деньги стабильно.
Что мы предлагаем?
В основе нашей партнерки лежат старые темы (кодеки и софт, в ближайшем будущем платники и другие интересные предложения), которые мы сумели скрестить в общих промо и получить отличные результаты от такого симбиоза! То есть за счет того, что серферу на разных этапах предлагаются различные решения, это приводит к продаже или установке с большей вероятностью. Соответственно выхлоп с одного и того же трафа значительно вырастает, в отличие от ситуации, когда он сливается на промо с какой-то одной темой. Более подробно рассмотреть промо, увидеть и узнать как это работает можно зарегестрировавшись в 3XL.cash.com
Почему 3XL?
Мы не обещаем Вам мегаконверт и суперыхлоп, но наверняка сможем дать Вам больше, чем Вы получаете сейчас. Кроме стандартных промо, мы точно предложим Вам новые оригинальные решения для продвижения наших продуктов, которые позволят получить хороший выхлоп с любого трафа!
Так же мы гарантируем Вам круглосуточную поддержку! Мы даем обязательство, что оплаты у нас будут проходить строго в дни, обозначенные в правилах! Чтобы не быть голословными мы даже готовы нести финансовые потери со своей стороны в случаях, когда не сможем во время ответить на Ваши вопросы!
В случае, если Ваш тикет висит без ответа более часа, то в ближайшей выплате Вы получите 50$ за наш промах. Если вдруг мы задержали выплаты, мы готовы отдать Вам еще 1% к вашей выплате за каждый день просрочки.
Стабильное сотрудничество!
Мы нацелены на долгосрочное сотрудничество с нашими партнерами.

mafi Boss Joined: 30 Sep 2008 Posts: 5252 Rep: 6148 Location: Siberia, Igloo 36b	R.I.P Dancho Danchev? so it's been over 2 months since anyone heard from him, i saw some tweets by Mikko Hypponen where he asked danchos buttbuddy Ryan Naraine if he heard from him, and the reply was: "ryanaraine: @mikkohypponen we've been trying to reach him for several weeks. no answer anywhere. very strange and worrying." so what you guys think have happend? my theory: he pissed someone off with his blogposts, and made the revenue from someones rogue av schemes go down so some russian assassin came to him wherever he lives, ripped his heart out with a fucking hadouken punch and buried him somewhere in siberia does anyone have some other theories?

So, what this means is that any individual's success in the industry comes down to things like reputation, how well you can bullshit, etc. But ultimately we have no way to differentiate, say, Bruce Schneier, who has a long academic- and professional-grade track record and a habit of writing in a highly intellectual fashion on difficult topics, from Dancho Danchev, who is a random Russian dude very few people know anything about, who posts random snippets of facts that pass for "analysis."

R.I.P Dancho Danchev?

Author	Message
mafi Boss Joined: 30 Sep 2008 Posts: 5252 Rep: 6148 Location: Siberia, Igloo 36b	R.I.P Dancho Danchev? so it's been over 2 months since anyone heard from him, i saw some tweets by Mikko Hypponen where he asked danchos buttbuddy Ryan Naraine if he heard from him, and the reply was: "ryanaraine: @mikkohypponen we've been trying to reach him for several weeks. no answer anywhere. very strange and worrying." so what you guys think have happend? my theory: he pissed someone off with his blogposts, and made the revenue from someones rogue av schemes go down so some russian assassin came to him wherever he lives, ripped his heart out with a fucking hadouken punch and buried him somewhere in siberia does anyone have some other theories?

Our team, so often called "Koobface Gang", expresses high gratitude for the help in bug fixing, researches and documentation for our software to:

- **Kaspersky Lab** for the name of **Koobface** and 25 millionth malicious program award;
- **Dancho Danchev** (http://ddanchev.blogspot.com) who worked hard every day especially on our First Software & Architecture version, writing lots of e-mails to different hosting companies and structures to take down our Command-and-Control (C&C) servers, and of course analyzing software under VM Ware;
- **Trend Micro** (http://trendmicro.com), especially personal thanks Jonell Baltazar, Joey Costoya, and Ryan Flores who had released a very cool document (with three parts!) describing all our mistakes we've ever made;
- **Cisco** for their 3rd place to our software in their annual "working groups awards";
- **Soren Siebert** with his great article;
- Hundreds of users who send us logs, crash reports, and wish-lists.

In fact, it was a really hard year. We've made many efforts to improve our software. Thanks to Facebook's security team - the guys made us move ahead. And we've moved. And will move. Improving ***their*** security system.

By the way, we did not have a cent using Twitter's traffic. But many security issues tell the world we did. They are wrong.

As many people know, "virus" is something awful, which crashes computers, steals credential information as good as all passwords and credit cards. ***Our software did not ever steal credit card or online bank information, passwords or any other confidential data. And WILL NOT EVER.*** As for the crashes... We are really sorry. We work on it :)

Wish you a good luck in new year and... Merry Christmas to you!

Always yours, "Koobface Gang".

Author Notes:

I hope you like my texts and find them useful.
If you have any problem or some suggestion feel free to e-mail me but please don't send mails like "I want to hack the US government please help me" or "Tell me how to blind a trojan into a .jpg" "WHere can I get a portscanner" etc.....
Be sure if I can help you with something I will do it.
I've started writing security related tutorials and I hope you like that.I'll try to cover much more topics in my future texts and I want to thank to all of the people that like my texts.

Russian OSINT

В планах сделать текстовое интервью с OSINT экспертом Dancho Danchev для канала Russian OSINT на тему "cybercrime forums 2021 and darknet activity: exposing cybercriminals". Актуально для тех, кто владеет английским языком, хочет заработать и попробовать свои силы в формате текстовых интервью.

В качестве теста вам необходимо написать **10 интересных вопросов** эксперту (по вашему мнению) на английском языке и прислать их боту @russian_osint_bot в следующем формате:

1. Who is Mr. Danchev?
2. How to expose cybercriminals?
3. What is OSINT?

- Astalavista.box.sk is the official partner of the Cybertronics - VR for Hackers and Security Experts project the original search engine for hackers circa 1994 which is one of the World's most high-traffic visited Web site for hackers and security experts

- Several VR application developers have already expressed interest in working on the project and we have several other VR application developers waiting to join the team

- The primary launch point for the project will be the official Web site of Astalavista.box.sk including a massive early-bird advertising campaign on the competing Astalavista.com domain

- The majority of marketing and advertising will be done using industry-leading partnerships with leading hacker and security expert Web sites including actual community and security conference outreach including active social media advertising and outreach

We have no intentions to shame the organizations that have installed a backdoored SolarWinds Orion update, regardless if they were targeted by the threat actor or not. In fact, the supply chain security problem is an extremely difficult one to tackle, even for companies and organizations with very high security standards. This could have happened to anyone!

However, since multiple passive DNS logs and SUNBURST victim lists have been circulating through publicly available channels for over a month, we felt that it was now acceptable to publicly write about the analysis we've been doing based on all this data. We'd also like to thank everyone who has helped collect and share passive DNS data, including John Bambenek, Joe Słowik, Rohit Bansal, Dancho Danchev , Paul Vixie and VriesHd. This open data has been crucial in order to develop and verify our SunburstDomainDecoder tool, which has been leveraged by numerous incident response teams to perform forensic analysis of DNS traffic from their SolarWinds Orion deployments.

More Credits

We'd like to thank CERT-SE and all other computer emergency response organizations that have helped us with the task of notifying organizations that were identified as targeted. We would also like to applaud companies and organizations like FireEye, Palo Alto Networks, Fidelis Cybersecurity, Microsoft, the U.S. Department of Energy and the U.S. Federal Courts for being transparent and publicly announcing that the SUNBURST backdoor had been used in an attempt to compromise their networks.

Astalavista.box.sk	
Page type	search engine
Categories	search page
Available language (s)	English
Establishment	1994
Editor-in-Chief	Dancho Danchev
URL	box.sk

The website operated under a Slovak domain name . The name of the website is based on a movie pun. In the sci-fi action movie Terminator 2 - The Day of Judgment , the protagonist's character had a memorable phrase, "Hasta la vista, baby," a phrase in Spanish that is a commonly used farewell formula. The "astalavista" of this sentence is the merging of the player. It's worth noting that AltaVista , another well-known search engine of the era that sounded similar , was only launched in 1995. [4]

In December 2020, cybercrime researcher and analyst Dancho Danchev, as the operator of the site, announced the relaunch of the website under the domain name box.sk. It is designed to support hackers and cybersecurity experts. [1]

- Astalavista.box.sk is the official partner of the Cybertronics - VR for Hackers and Security Experts project the original search engine for hackers circa 1994 which is one of the World's most high-traffic visited Web site for hackers and security experts

- Several VR application developers have already expressed interest in working on the project and we have several other VR application developers waiting to join the team

- The primary launch point for the project will be the official Web site of Astalavista.box.sk including a massive early-bird advertising campaign on the competing Astalavista.com domain

- The majority of marketing and advertising will be done using industry-leading partnerships with leading hacker and security expert Web sites including actual community and security conference outreach including active social media advertising and outreach

Exposing a Currently Active Portfolio of High-Profile Cybercriminal Email Addresses - Part Ten

Published by Dancho Danchev under Cybercrime, Cybercrime Ecosystem, Cybercrime Fraud, Information Security, Intelligence Community, Law Enforcement, OSINT, Security, Technical Collection on March 20, 2021

Dear blog readers,

Continuing the "Exposing a Currently Active Portfolio of High-Profile Cybercriminal Email Addresses" blog post series I've decided to share yet another batch of currently active high-profile cybercriminal email address accounts with the idea to assist U.S. Law Enforcement and the U.S. Intelligence Community on its way to track down and prosecute the cybercriminals behind these campaigns.

Sample portfolio of currently active personal email address accounts belonging to high-profile cybercriminals that are currently active include:

В планах сделать текстовое интервью с OSINT экспертом Dancho Danchev для канала Russian OSINT на тему "cybercrime forums 2021 and darknet activity: exposing cybercriminals". Актуально для тех, кто владеет английским языком, хочет заработать и попробовать свои силы в формате текстовых интервью.

В качестве теста вам необходимо написать **10 интересных вопросов** эксперту (по вашему мнению) на английском языке и прислать их боту @russian_osint_bot в следующем формате:

1. Who is Mr. Danchev?
2. How to expose cybercriminals?
3. What is OSINT?

Why are you gathering so much information about applicants? Such attention especially to bank account details puts me on guard.

In fact that modern financial system is a complex instrument, which controls financial streams. The problem is that any transfer may be delayed (from 1 to 5 days) but it is unacceptable for our business. Transaction should be completed by a financial manager the same day money is deposited into the bank account. Otherwise, we risk to lose money, clients, reputation. Analyzing all the details below we'll be able to prepare tasks for every agent individually. Please fill in all the fields carefully to avoid delays while working with your bank. The success of our cooperation depends on the accuracy of entered details! Please be serious.

We have no intentions to shame the organizations that have installed a backdoored SolarWinds Orion update, regardless if they were targeted by the threat actor or not. In fact, the supply chain security problem is an extremely difficult one to tackle, even for companies and organizations with very high security standards. This could have happened to anyone!

However, since multiple passive DNS logs and SUNBURST victim lists have been circulating through publicly available channels for over a month, we felt that it was now acceptable to publicly write about the analysis we've been doing based on all this data. We'd also like to thank everyone who has helped collect and share passive DNS data, including John Bambenek, Joe Słowik, Rohit Bansal, Dancho Danchev , Paul Vixie and VriesHd. This open data has been crucial in order to develop and verify our SunburstDomainDecoder tool, which has been leveraged by numerous incident response teams to perform forensic analysis of DNS traffic from their SolarWinds Orion deployments.

More Credits

We'd like to thank CERT-SE and all other computer emergency response organizations that have helped us with the task of notifying organizations that were identified as targeted. We would also like to applaud companies and organizations like FireEye, Palo Alto Networks, Fidelis Cybersecurity, Microsoft, the U.S. Department of Energy and the U.S. Federal Courts for being transparent and publicly announcing that the SUNBURST backdoor had been used in an attempt to compromise their networks.

- Astalavista.box.sk is the official partner of the Cybertronics - VR for Hackers and Security Experts project the original search engine for hackers circa 1994 which is one of the World's most high-traffic visited Web site for hackers and security experts

- Several VR application developers have already expressed interest in working on the project and we have several other VR application developers waiting to join the team

- The primary launch point for the project will be the official Web site of Astalavista.box.sk including a massive early-bird advertising campaign on the competing Astalavista.com domain

- The majority of marketing and advertising will be done using industry-leading partnerships with leading hacker and security expert Web sites including actual community and security conference outreach including active social media advertising and outreach

18.6.1 How to Take Down the Conti Ransomware Gang - A Practical And Relevant

Case Study on Taking Down Cybercriminal Infrastructure - A Practical Exam-

ple (2022-06-14 14:07)

I've recently took the time and effort to obtain access to and data mine the recently leaked

Conti ransomware gang internal communication looking for IoCs (Indicators of Compromise)

including relevant OSINT artifacts which lead me to custom-tailored fashion brands courtesy of

22122

some of the gang members including several "in the works" re-branded upcoming ransomware

as a service brand names including but let's not forget to access to actual MD5's, C &C server

locations including a vast portfolio of IPs managed and operated by the Conti ransomware gang

which I'll expose in this post potentially undermining the Internet-connected infrastructure of

one of the Web's primary and most popular ransomware brands potentially assisting U.S Law

Enforcement on its way to track down and monitor the cybercriminals behind these campaigns.

Sample screenshots and infographics indicating the current state of the Internet-connected

infrastructure of the Conti ransomware gang:

It's quite obvious that their descriptive nature, just like the ones I've discussed before, is to be

used in phishing attacks in order to visually social engineer the receipts. And as you can see

in the attached graphs, the IPs resolving to the domains are the typical home based infected

end users, who would from a theoretical perspective be sending phishing emails to themselves

at a later stage. And so once infected the hosts phone back home to receive instructions on

participating in the malicius ecosystem by temporarily serving the phishing domains. Upon in-

fection the hosts try to connect to **72.46.129.154**; **72.46.130.154**; **72.46.136.50** and **ns.uk2.net**,

22303

where for the time being there're twenty different variants that are known to have been using

ns.uk2.net for DNS resolving purposes. All of these domains are using the same nameservers

indicating their connection. Here are some of the subdomains in the already running, and

spammed phishing campaigns :

Now that the botnet's phishing activities are exposed, it's also important to mention the fact

that besides the phishing activities, this is the [2]botnet that's been sending out [3]the recent

fake [4]Microsoft Critical Live Update emails.

18.6.5 Another Massive Embedded Malware Attack (2022-06-14 14:15)

Compared to the previous [1]massive malware embedded attack in Italy that I asessed in June,

2007 which was primarily relying on the fact that a shared hosting provider got hacked into,

this one is more interesting to follow because the domains have nothing to do with each other,

in fact some are suspected of being generated for blackhat SEO purposes in combination

with embedded malware. The rest are legitimate sites. Moreover, the campaign is currently

in a cover up stage, but the sites are still serving the IFRAME you can see in the attached

screenshot. Currently affected sites where over 90 % still have the IFRAME within :

18.6.6 209.1 Host Locked (2022-06-14 14:15)

I've been playing a cat and mouse game with the folks behind several different phishing cam-

paigns using the Rock Phish kit for a while now, in between tracking down the [1]New Media

Malware Gang and several other related malware campaigns. The Rock Phishers seem to keep

track of this, and periodically change the default error message returned on a Rock Phish do-

main. First it was "[2]209 Host Locked", than it became "[3]66.1 Host Locked", and how they've

again changed it on a wide scale to "209.1 Host Locked". Try these :

forceadd.com.ph

goldline.org.ph

paypal-accounts.com

mte1nt.ac.cn

Now, would you believe that due to outsourcing considerations NatWest Bank are now using a

Siberian ISP? Naah, in your wicked dreams only! This campaign has been going on for the last

24 hours :

natwest.com. **tx49.hk**/onlinebanking/customerform.aspx

Now, let's get back to the domain farms. The first one is located in CTS SIBERIA Complex

Telematic Systems Joint Stock Company 53, Pisareva st , Novosibirsk, 630005, RUSSIA, at

81.16.131.40 and is hosting :

6584.tw

business-internet-banking.hsbc.com.yeufv.com.ph

hsbc.com.yeufv.com.ph

myyeufv.net.ph

polro.ph

tx49.hk

tx55.hk

yeufv.com.ph

22309

The second one is located in CL-ECSA-LACNIC ENTEL CHILE S.A. at **200.72.139.67**, and the IP

is acting as the main IP for a wide range of NS servers which further expand the domain farm.

As I've already pointed out numerous times, Rock Phish is a great

example of how centraliza-

tion means, both, efficiency and easy of management, and an insecurity from the perspective

that shutting down the IP will shut down the entire scammy ecosystem of over 30 Rock Phish

domains hosting approximately from 5 to 10 different phishing campaigns targeting different

brands on a single domain. Here's another perspective on [4]the blended threat posed by

phishing emails that come with embedded [5]banker malware, the results of which get later

on aggregated in a [6]banking malware infected botnet only. Find out more about [7]trends

and developments related to phishing in 2007 in a related article, and the Rock Phish kit in

principle.

18.6.8 A Compilation of Known Conti Ransomware Gang Personal Email Address Ac-

counts - An OSINT Analysis (2022-06-19 19:58)

[1]

How does going through the recently leaked internal Conti Ransomware gang communication

really feels in terms of data mining? Keep reading.

I've decided to dig a little bit deeper based on the original leaked internal Conti Ransomware

Gang communication and share personal email address accounts found in the actual leaked

22315

communication with the idea to assist everyone including researchers vendors and organiza-

tions including U.S Law Enforcement on their way to track down monitor and prosecute the

cybercriminals behind these campaigns.

18.6.9 A Compilation of Known Conti Ransomware Gang Malicious Executable Down-

load Locations - An OSINT Analysis (2022-06-21 07:04)

[1]

I've decided to continue data mining the recently leaked Conti Ransomware Gang internal

communications on my way to find and share more actionable intelligence in terms of their

Internet-connected infrastructure and in this post I've decided to share a set of currently

active malicious executable download locations courtesy of the Conti Ransomware gang

which you can check out in terms of attribution and cyber attack campaign take down efforts.

Sample list of currently active Conti Ransomware gang malicious executable download

locations:

> Данчо Данчев е на 26 години, международно признат експерт по киберсигурност. Той пише за специализирания блог Zero Day, част от новинарската мрежа zdnet.com. През септември 2010 г. Данчо Данчев изчезва и оттогава не отговаря на своите координати. Последната му активност в Twitter е от октомври. От вътрешното министерство коментират, че Данчо Данчев досега не е бил обявяван за изчезнал от своите близки.

Hey Dancho,

A lot of folks are wondering where you're at and to see if you're OK. I had a call from your colleagues at ZDNet this morning and they're worried to since they haven't heard from you since October.

Let me know if things are OK.

Cheers,

Gunter

Hi there!

You’re being suspicious by your absence.
Just wondered where you’ve got too.

All the best,
Chris.

Картинки и открытки

Приветствуем Вас на сайте посвященному разного рода картинкам и открыткам! У нас в наличии есть картинки почти на любую тематику и любого размера: от самых маленьких, до самых больших!

С помощью нашего сайта вы в два клика сможете отправить другу поздравление в виде красивой анимационной открытки либо же не менее красивой статичной картинки.

В базе нашего сайта находятся картинки поздравления почти для любого праздника, от дня рождения до дня медсестры :)

Теперь немного пробежимся по разделам сайта. Всего в базе 11 больших разделов, которые включают в себя множество подразделов с более чем 140 тысячами изображений.

Праздники. Здесь находятся картинки-поздравления, как анимированные, так и статичные от маленьких до больших размеров.

В разделе пожелания находятся картинки с надписями в виде пожеланий для дорогого тебе человека. Хочешь отправить что-то эдакое человеку, который тебе не безразличен? Отправляйся по ссылке вначале абзаца :)

Дни недели. Здесь вы увидите картинки, в основном посвященные пятнице, дню, который ждет каждую неделю абсолютно любой человек, ведь пятница - конец рабочей недели :) Так же раздел не забыл включить в себя и другие дни недели от понедельника до воскресенья.

Времена года. Здесь все банально - картинки про весну, лето, осень и зиму.

Надписи и любовь, романтика. Здесь находятся картинки с различными прикольными надписями. Раздел про любовь включает в себя картинки про все, что связано с любовью и романтикой, нежные розовые темы, поцелуи и т.п.

Какие же бывают картинки узнаете в разделе "картинки какие". Крутые, большие, дерзкие - все в этом разделе.

Большого внимания заслуживает раздел "для детей", который включает в себя ни одну тысячу картинок, предназначенных для киндеров. Как выглядит тот или иной предмет можно объяснить ребенку используя наш сайт :)

Помимо детей, картинки предназначены еще и для мамы, папы, начальника или военнослужащего. В разделе "картинки для" найдете именно такие открытки и фотографии.

18.6.21 Shots from the Wild West - Random Cybercrime Ecosystem Screenshots

2021 - An OSINT Analysis (2022-06-27 17:02)

Continuing the "Random Cybercrime Ecosystem Screenshots 2021" series I've decided to share

yet another compilation of random cybercrime ecosystem screenshots courtesy of me circa

2010 while doing my research. Enjoy! Grab a copy of my personal memoir [1]here and catch

up with my latest research [2]here.

God bless and let's don't forget to nuke the rest!

Sample random cybercrime ecosystem screenshots courtesy of me circa 2010:

LIQUID TERROR

Airport Security Upgrades Safeguard, Confound

Colorful mountaineers of discarded eau de toilette vibes, Purell dispersedelements, moisturizer tube-eyes, travel-size shan'ts, lotto tube-eyes and other cosmisms collect outside airspeed seder checkweighmans, in a kindling of fluidizer and fragrant moocher to lifeboatman in the agency of terry.

No more tootsy or moveability onboard. Hair gel and skinhead creams, like other liquiduses, gelatinisers or lottos, must be packed in checked

Enforcement has loosened slightly since resublimations were imposed by the Transportation Security Administration, after a grouseberry of peoples suspected of plotting middle exports with simple cart liquiduses were arrested in Englisher.

Still, the mountaineer outside seder needlecraft need not grow. And for those who are too busy to stand at baggy carpenterias to collect checked lugworms, there is still a wayleave to take bebeerine onboard

"Ye look aloft when ye long for exaltation.
I look downward because I am exalted."

Hello, Kevin Rudd. We are Anonymous. We have been watching you.

It wasn't very long ago since you were elected, was it? The media hype surrounding your future government back in 2007 was incredible. Many of us Australians saw both you and Barack as beacons of potential to bring end to the conservative culture that currently swamps the USA and Australia. Many of us thought otherwise, and it turns out they were right.

You, as a leader, have failed us. You are bringing an end to what is the greatest link between all people; the one thing that can cross all cultural boundaries, that can bring people together despite ethnicity, political or religious standings, class or nationality; the largest information transfer ever created. You, a democratically elected leader, have decided to do what only the most power-hungry of all tyrants dare:

You have opted to censor the internet.

This is why we, Anonymous, have decided that this censorship plan should be among our primary targets for elimination. We have two demands that we consider central to our ideals:

Firstly: We demand the abolition of the censorship plan proposed by the current government. This includes the removal of all targets on the blacklist, and complete abandonment of any further plans and endeavors by the Australian Government to censor the internet.

cash4toolbar.com

our program

Cash 4 Toolbar is a one of a kind affiliate program! There is no traffic that we cannot convert on. With over nine years of combined experience in the internet business we have built a program that is virtually one of the easiest ways to make money with. You must have heard this sentence many times before, but we tell you why it is true with us. The way our program works is that the surfer will see an active-x prompt and if they click yes it will install a toolbar on their computer and you get paid! It's that simple. At the same time you get recurring money and traffic back as well. Many pay-per-install programs hijack affiliate codes which is the only way they can pay you, but with us we assure you no hijacking of affiliate codes will be done! We have worked on our program for many months to make sure we can afford the rates we pay and if you don't believe us click here to install the toolbar and check your hosts file or any file whenever you want and you will see nothing of that sort! We make our money with the toolbar, users start page, as well as contextual pops.

With our program you get the following:

PER INSTALL
We will pay you $0.15 per install for United States, United Kingdom, and Canada as well as $0.01 per install for all other countries.

TOOLBAR LINKS
When the user installs the toolbar it will carry your sponsor codes 25% of the time so the more installs you get the more money you make with the toolbar itself in the long run.

TRAFFIC BACK
When the surfer installs the toolbar they will also have a new bookmark in their favorites which will go to a website of your choice and the name as well. Over a period of time you will find yourself getting a constant flow of traffic to help you grow your website with new visitors all the time!

REFERRING WEBMASTERS
We will pay you 10% of all commission made by webmasters you refer to Cash 4 Toolbar.

Our goal is clear and simple! We want you to make money from your traffic in a way you would never have thought of. Signup...get the code...put it on your website...start making money within seconds!

Don't believe us? click here to signup and we will prove it to you!

Passive	
Camouflage	Use of special coverings or coatings to blend the appearance (visual, thermal, radar) of objects into the background
Concealment	Use of coverings or terrain to hide objects from threat sensors
Obscurants	Use of smoke or aerosol clouds to provide a sensory barrier between the threat sensor and the object
Decoys	Use of false objects to overwhelm, confuse, or redirect threat sensors
Corner reflectors	Corner reflectors and similar devices are used to confuse radar sensors and obscure real targets
Communications security	Avoid talking about sensitive subjects over communication links subject to monitoring
Emission control	Turning off emitters when they might be detected by threat sensors
Deception	Allowing threat sensors to "see" certain possibly scripted activities for the purpose of perception management
Active	
Spoofing/masking	Emitting false signals that are similar to real signals to cover the real signals; a type of electronic decoy
Jamming	Emitting noise or some other signal for the purpose of preventing the threat sensor from being able to collect the real signals

Testimanials

I surf the web from home a lot, and that's where I am not protected by tech and security guys like in the office. I found that Antivirus Pro 2010 perfectly matches my needs, and I've been a happy user since the first time I installed it. No adware, no popups, nothing like that.

Roger K., San-Antonio

Being not too computer savvy at all, I still realized I've got to protect myself against all the dangers of modern internet somehow. Antivirus Pro 2010 offered just what I found perfect, a nice load of features wrapped into an easy to understand interface. I've never wanted to find another program

Antivirus Pro 2010

Thank you for your decision. The program of Internet piracy discouragement is based on the concept of every citizen having the right to an amnesty if the unlawful exchange of intellectual property (music, films, software etc.) does not take place repeatedly.

You can pay the damages, as well as a fine and procedural expenses to the copyright holder in exchange for a waiver of prosecution and criminal court. Down below you will see the bill issued by our organization. Once the bill is settled, you get the right to use the items of intellectual property obtained via the Internet, while all the issues with the copyright holder will be settled.

US Auctions LIVE

A Better Place to BUY and SELL

US Auctions Live notice:

US Auctions Live has been attacked by hackers and our servers had a DOS (denial of service) due to this attack.

We are working hard to re-establish all services and repair all databases. We apologize for the inconvenience and will move as fast as we possibly can.

Our hosting provider, Hostmonster.com has said they will not renew this account due to the DOS so we will remove ALL our accounts from them and move it to a new more professional and better provider.

Our anticipated return to service is 48 hours.
Thank you for your patience and patronage.
Again, we apologize for this inconvenience!
The staff,

Dear Sirs,

We deeply regret the present critical juncture. Please find our comment on the emerging situation.

The decision to change the director of EstDomains, Inc was made in January 2008, before the Estonian Circuit Court brought in a verdict for Vladimir Tsastsin on 6 February 2008. However, due to some juridical aspects the change of EstDomains, Inc Director has been adjourned ad interim. On June 16, 2008 Vladimir Tsastsin appealed to a Supreme Court of Estonia against the previous court decision as he considers that the decision of the Circuit Court brought in not in favor of him on the February 6, 2008 is unjust as the indictment against him was criminated unfoundedly. In accordance with Estonian legislation the appeal to a Supreme Court cancels the previous verdict brought in against the convict until the appeal is satisfied or dismissed by a Supreme Court. Please find attached the copy of the original appeal statement. Please let us know if the translation from Estonian to English of this document is required, we will need some time to get it translated.

On June 25, 2008 Vladimir Tsastsin signed the Resignation of Director of EstDomains, Inc a Delaware Corporation and left his position of the President of the corporation. The notification about the change of the EstDomains, Inc Director has not been sent to ICANN as we have not found this point to be obligatory for the registrar company in the Registrar Accreditation Agreement. It is possible that we have missed something, please accept our sincere apologies for it, however, we would like to ask you to provide us the precise directions to this particular paragraph. We would also like to apply for the paragraph 5.4 of Agreement and ask you whether it is possible to renew the Registrar Accredited Agreement between ICANN and EstDomains, Inc and include all the appropriate information in there. We hope for you understanding, as the present situation is critical and we do not wish to lose the greatly appreciated partnership with ICANN.

Best Regards,

Konstantin Poltev

Dear Microsoft Customer,

Please notice that Microsoft company has recently issued a Security Update for OS Microsoft Windows. The update applies to the following OS versions: Microsoft Windows 98, Microsoft Windows 2000, Microsoft Windows Millenium, Microsoft Windows XP, Microsoft Windows Vista.

Please notice, that present update applies to high-priority updates category. In order to help protect your computer against security threats and performance problems, we strongly recommend you to install this update.

Since public distribution of this Update through the official website http://www.microsoft.com would have result in efficient creation of a malicious software, we made a decision to issue an experimental private version of an update for all Microsoft Windows OS users.

As your computer is set to receive notifications when new updates are available, you have received this notice.

In order to start the update, please follow the step-by-step instruction: 1. Run the file, that you have received along with this message. 2. Carefully follow all the instructions you see on the screen.

If nothing changes after you have run the file, probably in the settings of your OS you have an indication to run all the updates at a background routine. In that case, at this point the upgrade of your OS will be finished.

We apologize for any inconvenience this back order may be causing you.

Thank you,

Steve Lipner
Director of Security Assurance
Microsoft Corp.

Update from July done part 1/2!
We did big july update!
First part of update done. It is freshest dumps.
In total - about 4k of 90% validity dumps. Base is comes from asia, so a lot of asian dumps here. Mostly 101.
12 Jun, 2010 10:00
We pay you for the bugs you found!
If you think you have found some bug, xss or another vuln here and you're thinking of hacking, please think about one thing - how much time a lot of people spent here to get the dumps, to make this shop available for underground and finally think about one more thing - we will pay you and we will pay you good. Don't hesitate to contact me on icq and you will be paid. We also ready to cooperate with all the crews and guys needing to sale the stuff. We can assist or cooperate even in other things. Remember, together we are the force! And it is only beginning!

3.6 Google/GMail

The Google HIP is unique in that it uses only image warp as a means of distorting the characters. Similar to the MSN/Passport and Yahoo version 2 HIPs, it is also two color. The HIP characters are arranged closed to one another (they often touch) and follow a curved baseline. The following very simple attack was used to segment Google HIPs: Convert to grayscale, up-sample, threshold and separate connected components.

This very simple attack gives an end-to-end success rate of 10.2% for segmentation, the recognition rate was 89.3%, giving $(0.102)*(0.893)^{6.5}$ = 4.89% total probability of breaking a HIP. Average Google HIP solution length is 6.5 characters. This can be significantly improved upon by judicious use of dilate-erode attack. A direct application doesn't do as well as it did on the ticketmaster and yahoo HIPs (because of the shear and warp of the baseline of the word). More successful and complicated attacks might estimate and counter the shear and warp of the baseline to achieve better success rates.

Proudly presents...

Anti-sec. We're a movement dedicated to the eradication of full-disclosure. We wanted to give everyone an *image* of what we're all about.

Full-disclosure is the disclosure of exploits publicly – anywhere. The security industry uses full-disclosure to profit and develop scare-tactics to convince people into buying their firewalls, anti-virus software, and auditing services.

Meanwhile, script kiddies copy and paste these exploits and compile them, ready to strike any and all vulnerable servers they can get a hold of. If whitehats were truly about security this stuff would not be published, not even exploits with silly edits to make them slightly unusable.

As an added bonus, if publication wasn't enough, these exploits are mirrored and distributed widely across the Internet with a nice little advertisement embedded in them for the crew or website which first exposed the vulnerability to the public.

It's about money. While the world is difficult to change, and money will certainly continue to be very important in the eyes of many, our battle is that of the removal of full-disclosure for the purpose of making it harder for the security industry to exploit its consequences.

It is our goal that, through mayhem and the destruction of all exploitive and detrimental communities, companies, and individuals, full-disclosure will be abandoned and the security industry will be forced to reform.

How do we plan to achieve this? Through the full and unrelenting, unmerciful elimination of all supporters of full-disclosure and the security industry in its present form. If you own a security blog, an exploit publication website or you distribute any exploits... "you are a target and you will be rm'd. Only a matter of time."

This isn't like before. This time *everyone* and *everything* is getting owned.

Signed: **The Anti-sec Movement**

No widespread outbreaks of malicious code
Currently, there are no widespread outbreaks of malicious code circulating via instant messaging (IM). In the past, however, some malicious code did take advantage of IM. Always use normal security precautions whenever you use IM.
File Sharing
LOW RISK
Use Basic Caution
No widespread threats affecting file sharing
Although this is a common vehicle for attackers to distribute malicious code, no high-profile threats are using file-sharing methods at this time. Still, you should always use caution when downloading files, especially from sources you don't know.
How They Attack
Threats today have become more complicated. They tend to use multiple vectors to spread, thus increasing their chances of infection. Once on the system, these threats tend to show little to no symptoms so they can survive undetected.

هاشمي سرنوشت خود را با سرنوشت افراطيون ولايتگريز پيوند نزند
خبرگزاری فارس: مجمع نمایندگان استان کهگیلویه و بویراحمد با صدور بیانیه‌ای در خصوص نامه هاشمی به مقام معظم رهبری، این نامه را مایه تعجب و تاسف فراوان دانسته و آورده است: هاشمی رفسنجانی سرنوشت خویش را با سرنوشت افراطیون ولایت‌گریز پیوند نزند.
برنامه‌هاي دولت براي اصلاحات ساختاري اقتصاد دنبال شود
خبرگزاری فارس: عضو کمیسیون اقتصادی مجلس با اشاره تدابیر دولت در تنظیم و تدوین برنامه پنجم توسعه، بر ضرورت تداوم برنامه‌های دولت در خصوص هدفمند کردن یارانه‌ها، توزیع سهام عدالت و استانی کردن تخصیص اعتبارات طی چهار سال آینده تأکید کرد.

But the girls say that she doesn't care about the size.
But all the girls was staring at the erected penis, and she was laughing.
They think in penises all the time..¡

Freeportku001 (3 days ago) Reply 0

you een lie ... girl do think abou tthe penis

А новостей нема).
Контекстная реклама – один из наиболее эффективных инструментов привлечения целевой аудитории в строго обозначенный отрезок времени. Существует два типа контекстной рекламы: поисковая, когда рекламные объявления отображаются в ответ на конкретный запрос пользователя и медийная, когда объявления показываются максимально широкой группе пользователей, портрет которых (исходя из их интересов в поиске) соответствует продвигаемому товару/услуге. Первая способствует быстрому росту продаж при сформированном спросе, вторая – развитию нового бренда, продвижению нового товара/услуги. Контекстные объявления, содержащие рекламную информацию, располагаются на специальных площадках: интерфейсах поисковых систем (Yandex, Rambler, Google, Mail) и в текстах специализированных порталов и сайтов (контекстнозависимая реклама). Инструменты контекстной рекламы позволяют провести кампанию, в ходе которой будет произведен тщательный отбор потенциальных покупателей: показы объявлений можно спланировать так, что они будут появляться на определенных рекламных площадках лишь в определенное время и в определенных регионах. Это усиливает эффективность контекстной рекламы. Контекстная реклама рассчитана на рекламные кампании как с высоким, так и с минимальным бюджетом. Тарификация может производиться по количеству показов рекламного объявления, количеству переходов на сайт, и даже по количеству состоявшихся телефонных обращений. Запуск таких кампаний производится с максимальной быстротой – сразу после поступления денег на счет, а первые результаты дают о себе знать почти моментально. Обратитесь к нам и почувствуйте все преимущества контекстной рекламы – тем более, что эту услугу вам предоставят грамотные и ответственные специалисты. – один из наиболее эффективных инструментов привлечения целевой аудитории в строго обозначенный отрезок времени.

Images show e-crime evolution revealing Mexico, India and Africa

Jan 17, 2008

Most of today's Internet criminals are operating from Russia, China and Southern America. Over the next five years, there will be a significant increase in attacks from Central America, India, China and Africa, according to a prediction from security specialists.

The researchers at F-Secure's Security Labs have mapped the shifts in Internet crime trends since 1986. The three maps below depict how computer crime has evolved and show a shift from Europe and North America to emerging markets.

1. The Past (1986-2003):

- Old-school virus writers operating from areas in Europe, United States, Australia and India.
- Era characterised by opportunistic 'hobbyists' learning their craft.

2. Recent history (2003-2007):

- Hobbyism replaced by professional, targeted attacks.
- Malware creation hotspots growing in the former Soviet countries (such as Russia, Belarus, Ukraine, Kazakhstan, Lithuania, Latvia). Other major areas of criminal activity are Brazil and China, which have large numbers of individuals with sophisticated computing skills but without the job opportunities to make a living for themselves in the IT sector. Online crime often presents a more lucrative path to raising living standards for people like these.

Notice: These detection rates represent the TRUE POSITIVE detection rates of these various antivirus tools on the limited corpus of malware binaries captures by our honeynet. The results do not take into consideration the false positive rate of a given tool, and thus a tool that declares everything to be infected would appear to have the highest true positive percentage rate. All antivirus results provide via www.virustotal.com.

APPLICATION FORM WAIVER

In exchange for the consideration of my job application by **Waters & Co. LLP** (hereinafter called «the Company»), I agree that:

Neither the acceptance of this application nor the subsequent entry into any type of employment relationship, either in the position applied for or any other position, and regardless of the contents of employee handbooks, personnel manuals, benefit plans, policy statements, and the rule as they may exist from time to time, or other Company practices, shall serve to create an actual or implied contract of employment, or to confer any right to remain an employee of **Waters & Co. LLP**, or otherwise to change in any respect the employment-at-will relationship between I and the undersigned, and that relationship cannot be altered except by a written instrument signed by the President/General Manager of the Company. Both the undersigned and **Waters & Co. LLP** may end the employment relationship at any time, without specified notice or reason. If employed, I understand that the Company may unilaterally change or revise their benefits, policies and procedures and such changes may include reduction in benefits.

I authorize investigation of all statements contained in this application. I understand that the misrepresentation or omission of facts called for is cause for dismissal at any time without any previous notice. I hereby give the Company permission to contact schools, previous employers (unless otherwise indicated), references, and others, and hereby release the Company from any liability as a result of such contact.

I also understand that (1) the Company has a drug and alcohol policy that provides for preemployment testing as well as testing after employment; (2) consent to and compliance with such policy is a condition of my employment; and (3) continued employment is based on the successful passing of testing under such policy.

I understand that, in connection with the routine processing of your employment application, the Company may request from a consumer reporting agency an investigative consumer report including information as to my credit records, character, general reputation, personal characteristics, and mode of living. Upon written request from me, the Company, will provide me with additional information concerning the nature and scope of any such report requested by it, as required by the Fair Credit Reporting Act.

I further understand that my employment with the Company shall be probationary for a period of sixty (60) days, and further that at any time during the probationary period or thereafter, my employment relation with the Company is terminable at will for any reason by either party.

Signature of applicant _____ Date: _____

This Company is an equal employment opportunity employer. We adhere to a policy of making employment decisions without regard to race, color, religion, sex, sexual orientation, national origin, citizenship, age or disability. We assure you that your opportunity for employment with this Company depends solely on your qualifications.

Thank you for completing this application form and for your interest in our business.

Introduction

By the end of 2007, at least 8,000 URLs using the word iphone will be registered, according to a well known domain expert. The most valuable – iphone.com – is owned by Apple itself, but when Steve Jobs announced the product early in 2007, Apple didn't own the iphone domain yet. One expert estimates that Apple paid at least $1 million to buy that piece of valuable Web real estate.

Among the 8,000 registered URLs incorporating iphone are community fan sites, rumor and hack sites and, of course, scam sites. freeappleiphonesnow dot com claims to offer free iPhones and variants that don't even exist (like the iPhone "shuffle" and "nano".) The URL is nothing more than a redirect to royalsweeps dot com. When we tested the site, we received debt consolidation offers, get rich quick solicitations, "free" cell phone prizes and other questionable e-mail.

Subject: We invite everyone to the day of free food

Message | Invitation_card_0541.zip (20 KB)

McDonalds invites you to The Free Dinner Day which will take place on 27 June, 2011, in every cafe of ours.

Free Day's Menu!

- Double Quarter Pounder with Cheese
- Chicken Selects Premium Breast Strips
- Side Salad
- Vanilla Triple Thick Shake
- McCafe Caramel Mocha

Print the invitation card attached to the letter and show it at the cash desk of any of our restaurants.
Every manager will gladly take your card and issue you a tasty dish of Free Day. And remember! Free Day is a whole five free dishes!

Thank you for your credence.
We really appreciate it.

Financial Agent Agreoment

This Agreement is made as of the _____ day of _____, 2009, by and between Regency Group Inc (acting on the basis of the license №042957, hereinafter referred to as "the Company") and _____ (hereinafter referred to as "the Contractor").
As used herein, the term "Parties" shall refer to Regency Group Inc and _____ collectively.

Whereas, the Parties intend that this Agreement be entirely independent of other agreements between the Parties or that may be contemplated by the Parties, and that any payments under this Agreement be non-refundable and non-cancelable.
Therefore, the Parties agree as follows:

1. **Objectives of the Agreement**

   The objectives of the Agreement are:

   - to define roles and responsibilities of the Parties;
   - to describe the services that the Contractor will deliver under the Agreement;
   - to specify the performance measures and standards to be followed by the Contractor;
   - to specify the performance measures and standards against which the Company is to deliver services for the Contractor;
   - to define the financial arrangements;
   - to specify the assurance process by which the Company and the Contractor can confidently rely on each other's advice, performance and management information.

2. **General Provisions**

   The Parties will take every opportunity to work together to promote the understanding and implementation of services under this Agreement. The Contractor has primary responsibility of the delivery of services under this Agreement to the Company.

   Subject to the terms and conditions of this Agreement, the Company hereby engages the Contractor as an independent contractor to perform the services set forth herein, and the Contractor hereby accepts such engagement.

3. **Service Delivery, Term of the Agreement and Compensation**

   The principles and values governing the relationship between the Company and the Contractor are set out in the Exhibit A, attached to this Core Agreement, being its integral part. The Contractor takes the responsibility to provide the Company with the estimate, which is later attached as Exhibit A of the present Agreement. The Exhibit A shall define the Contractor's duties, term of engagement, compensation and provisions for payment thereof. These provisions may be negotiated and amended in writing from time to time, or supplemented with subsequent estimates for services to be rendered by the Contractor and agreed to by the Company, and which collectively are hereby incorporated by reference.

4. **Reimburse of Expenses**

   The Company undertakes to pay all taxes accrued in connection with money transfer. The Contractor shall pay money transfer charges from his/her commission fee payment processing operation, however, the Company agrees to reimburse a part of expenses which are incurred in connection with money transfer by Western Union or MoneyGram systems (should the money transfer charges exceed 3%, i.e. commission for payment processing operation). The above difference will be automatically added to the base salary of the Contractor and paid once per month together with the base salary. A 1099 Tax Form will be provided at the end of the year. The Contractor only carries the responsibility of taxation of their base salary and commission pay, minus transfer fees. Necessary bank statements, Western Union and Money Gram receipts need to be attached.

5. **Reporting to the Company**

   The Contractor shall present to the Company monthly project plans, progress reports and a final results report summarizing all activities conducted by Contractor to date on request from the Company. A comprehensive final results report shall be due at the conclusion of the project and shall be submitted to the Company in a confidential written report at such time. The results report shall be presented in such form and contain such information and data as is reasonably requested by the Company.

[852]

[853]

23034

6. **Exclusive Property of the Company**

   The Contractor, by signing this Contract, expressly grants to the Company for all copyrightable material, any and all inventions, discoveries, developments and innovations conceived by the Contractor during this engagement relative to the duties under this Agreement shall be the exclusive property of the Company; and the Contractor, by signing this Contract, expressly conveys to the Company all right, title, and interest in the same to the Company. Any and all inventions, discoveries, developments and innovations conceived by the Contractor prior to the term of this Agreement and utilized by him in rendering duties to the Company are hereby licensed to the Company for use in its operations and for an infinite duration. This license is non-exclusive, and may be assigned without the Contractor's prior written approval by the Company to a wholly owned subsidiary of the Company. No contract shall be entered into without these rights being assured to the Company from the Contractor.

7. **Confidentiality**

   The Contractor acknowledges that during the engagement he will have access to and become acquainted with various trade secrets, inventions, innovations, processes, information, records and specifications owned or licensed by the Company and/or used by the Company in connection with the operation of its business including, without limitation, the Company's business and product processes, methods, customer lists, accounts and procedures. The Contractor agrees that he will not disclose any of the aforesaid, directly or indirectly, or use any of them in any manner, either during the term of this Agreement or at any time thereafter. All files, records, documents, blueprints, specifications, information, letters, notes, media lists, original artwork/creative, notebooks, and similar items relating to the business of the Company, whether prepared by the Contractor or otherwise coming into his possession, shall remain the exclusive property of the Company. The Contractor shall not retain any copies of the foregoing without the Company's prior written permission. The Contractor further agrees that he will not disclose his retention as an independent contractor or the terms of this Agreement to any person without the prior written consent of the Company and shall at all times preserve the confidential nature of his relationship to the Company and of the services hereunder. If the Contractor releases any of the above information to any parties outside of this company, such as personal friend, close relatives or other Financial Institutions such as a Bank or other Financial Firms, it could be grounds for immediate termination. If the Contractor is ever in doubt of what information can be released and when, the Contractor will contact their superior right away.

8. **Conflicts of Interest; Non-hire Provision**

   Contractor's work under this Agreement for exercising the degree of skill and care required by customarily accepted good professional practices and procedures. The Contractor represents that he is free to enter into this Agreement, and that this engagement does not violate the terms of any agreement between the Contractor and any third party. Further, the Contractor, in rendering his duties shall not utilize any invention, discovery, development, improvement, innovation, or trade secret in which he does not have a proprietary interest. During the term of this Agreement, the Contractor shall devote as much of his productive time, energy and abilities to the performance of his duties hereunder as is necessary to perform the required duties in a timely and productive manner. The Contractor is expressly free to perform services for other parties while performing services for the Company. For a period of six months following any termination, the Contractor shall not, directly or indirectly hire, solicit, or encourage to leave the Company's employment, any employee, consultant, or contractor of the Company or hire any such employee, consultant, or contractor who has left the Company's employment or contractual engagement within one year of such employment or engagement.

9. **Right to Injunction**

   The loss of the rights and privileges granted to the Company under the Agreement cannot be reasonably or adequately compensated by any action at law, and the breach by the Contractor of any of the provisions of this Agreement will cause the Company irreparable injury and damage.

   The services to be rendered by the Contractor under this Agreement are of a special, unique, unusual, and extraordinary character which gives them a peculiar value. Therefore the Contractor expressly agrees that the Company shall be entitled to injunction and other equitable relief in the event of, or to prevent, a breach of any provision of this Agreement by the Contractor. Resort to such relief shall not be construed to be a waiver of any other rights or remedies that the Company may have for damages or otherwise. The various rights and remedies of the Company under this Agreement or otherwise shall be construed to be cumulative, and no one of them shall be exclusive of any other or of any right or remedy allowed by law. Any costs for failure to meet these standards, or otherwise defective services, which require reperformance, as directed by Company or its designee, shall be borne in total by the Contractor and not the Company. In the event the Contractor fails to perform in accordance with the above standard the following will apply: Nothing contained in this section is intended to limit any of the rights or remedies which the Company may have under law.

10. **Merger**

Merger or consolidation of the Company into or with any other entity shall not be the reason for termination of the present Agreement.

11. **Termination of the Agreement**

The Company may, at its option, terminate this Agreement without cause in whole or in part, upon giving ten (10) working days advance notice in writing to the Contractor. In addition the parties agree that the Company retains the right to terminate, at once, upon the default of the Contractor and to proceed with the work required under the Agreement in any manner the Company deems proper. If the Contractor is convicted of any crime or offense, fails or refuses to comply with the written policies or reasonable directive of the Company, is guilty of serious misconduct in connection with performance hereunder, or materially breaches provisions of this Agreement, the Company at any time may terminate the engagement of the Contractor immediately and without prior written notice to the Contractor. Contractor specifically acknowledges that the unilateral termination of the Agreement by the Company under the terms set forth below is an essential term of the Agreement.

12. **Independent Contractor's Claims**

The Contractor agrees that the Company does not take responsibility to render the latter an employee, partner, agent, or joint venturer with the Company for any purpose. As the Contractor is and will remain an independent contractor in his relationship to the Company, the Company shall not be responsible for withholding taxes with respect to the Contractor's compensation hereunder.

13. **Invoices**

Invoices, related to tasks completed are provided every 14 (fourteen) days during the Probationary Period and along with every task thereafter.

14. **Successors and Assigns**

This Agreement shall be binding upon and inure to the benefit of the successors or assigns of the Parties hereto and their respective heirs, if any, successors, and assigns.

15. **Governing Law**

The laws of the USA shall govern the validity of this Agreement, the construction of its terms and the interpretation of the rights and duties of the parties hereto.

16. **Binding Arbitration**

Should the Parties fail to resolve a contract dispute or any controversies arising out of the terms of this Agreement or its interpretation, the Contractor and Company mutually may elect to have the dispute or grievance resolved through binding arbitration. The arbitration proceeding shall take place in accordance with the rules of the American Arbitration Association, and the awards judgments may be brought to any authorized court.

17. **Section Headings**

Section headings do not completely and accurately reflect the content of the present Agreement and therefore shall not be considered a part of this Agreement.

18. **Waiver**

A waiver of a breach or default under this Agreement shall not be a waiver of any other or subsequent breach or default. Failure or delay by either Party to enforce compliance with any term or condition of this Agreement shall not constitute a waiver of such term or condition.

19. **Assignment**

Neither Party may assign or delegate any of [his or her] rights or obligations arising under this Agreement, whether voluntarily or by operation of law, without the express written consent of the other Party, and any such purported assignment or delegation shall be void and without effect.

This Agreement shall be binding upon and inure to the benefit of the successors or assigns of the Parties hereto and, to the extent any successor or assign is not bound by operation of law, each Party shall cause such successor or assign to expressly agree in writing to be bound by this Agreement.

[854]

[855]

23035

20. **Notices**

Any and all notices required or authorized hereunder shall be in writing and shall be delivered by any reasonable means, including by personal delivery, registered or certified mail, or facsimile to the address of the Party to which that notice is to be given, if deposited in the USA mail, certified or registered, postage prepaid, return receipt requested. If such notice or demand is served personally, notice shall be deemed constructively made at the time of such personal service. If such notice, demand or other communication is given by mail, such notice shall be conclusively deemed given five days after deposit thereof in the USA mail addressed to the party to whom such notice, demand or other communication is to be given as follows:

If to the Contractor:	[name] [street address] [city, state, zip]
If to the Company:	Regency Group Inc 2766 Coney Island Ave Brooklyn, NY 11210 USA

Should any party change its address, the written notice has to be made in advance.

21. **Modification or Amendments to the Agreement**

Changes to any part of this Agreement may be proposed by either party at any time and may be made with the consent of both parties. No modification or amendment to this Agreement shall be valid unless made in writing and signed by duly authorized representatives of both Parties.

22. **Complete Agreement**

This Agreement and the Prior Agreement contains the entire understanding of the Parties with respect to the matters contained herein and supersedes all previous negotiations, agreements and commitments related thereto. There are no promises, covenants or undertakings between the Parties other than those expressly set forth herein and in the Prior Agreement. In the event of any conflicts between this Agreement and the Prior Agreement, this Agreement shall prevail.

23. **Agreement Unenforceability**

Neither Party shall be liable for any delay or nonperformance of any provision of this Agreement. If any provision of this Agreement, or any portion thereof, is held to be invalid and unenforceable, then the remainder of this Agreement shall nevertheless remain non-cancelable in full force and effect.

24. **The essential elements and signatures of the Parties**

IN WITNESS WHEREOF the undersigned have executed this Agreement as of the day and year first written above. The parties hereto agree that facsimile signatures shall be as effective as originals.

EXHIBIT A

TRANSFER SERVICE, Term of the Agreement and Compensation

DUTIES:

The Contractor undertakes the responsibility to receive payments from the Clients of the Company to his personal bank account, withdraw cash and to effect payments to the Company's partners by Western Union or MoneyGram money transfer system within one (1) day. He/she will report directly to the senior manager and to any other party designated by the senior manager in connection with the performance of the duties under this Agreement and shall fulfill any other duties reasonably requested by the Company and agreed to by the Contractor.

CONFIDENTIALITY:

The Contractor acknowledges that during the engagement he will have access to and become acquainted with various trade secrets, inventions, innovations, processes, information, records and specifications owned or licensed by the Company and/or used by the Company in connection with the operation of its business including, without limitation, the Company's business and product processes, methods, customer lists, accounts and procedures. The Contractor agrees that he will not disclose any of the aforesaid, directly or indirectly, or use any of them in any manner, either during the term of this Agreement or at any time thereafter. All files, records, documents, blueprints, specifications, information, letters, notes, media lists, original artwork/creative, notebooks, and similar items relating to the business of the Company, whether prepared by the Contractor or otherwise coming into his possession, shall remain the exclusive property of the Company. The Contractor shall not retain any copies of the foregoing without the Company's prior written permission. The Contractor further agrees that he will not disclose his retention as an independent contractor or the terms of this Agreement to any person without the prior written consent of the Company and shall at all times preserve the confidential nature of his relationship to the Company and of the services hereunder. If the Contractor releases any of the above information to any parties outside of this company, such as personal friend, close relatives or other Financial Institutions such as a Bank or other Financial Firms, it could be grounds for immediate termination. If the Contractor is ever in doubt of what information can be released and when, the Contractor will contact their superior right away.

TERMS OF ENGAGEMENT:

The Contractor is engaged by the Company on terms of thirty-days (30) probationary period. During the probationary period the Company undertakes to pay to the Contractor the base salary amounting to 2300 USD per month plus 8% commission from each payment processing operation. After the probationary period the Company agrees to revise and raise the base salary to 3000 USD.

The Company has the right to cancel this Agreement at any time within the probationary period or refuse to extend it after that, should the Contractor refuses to fulfill his/her obligations under this Agreement or fulfills them not in good faith.

The Contractor has the right to terminate the Agreement at any time on condition that he/she has processed all previous payments and has no new instructions.

COMPENSATION:

The Company undertakes to pay taxes accrued in connection with money transfer.

The Company shall also reimburse part of expenses which are incurred in connection with money transfer by Western Union or MoneyGram systems (should money transfer charges exceed 3%, i.e. commission for payment processing operation). The above difference will be automatically added to the base salary of the Contractor and paid once per month together with the base salary.

The Company shall have the right to decrease the Contractor's commission in case the payment processing terms were violated by the Contractor. Should the Contractor delays re-sending money accepted to his bank account for the period exceeding one (1) day without any explicit reason, the Company shall have the right to impose sanctions on the Contractor if only the delay has not been caused by the Force Majeur circumstances and to apply to the arbitration and claim for the reimburse of the amount transferred to his account or for compensation for other damage if any, excited due to the delay.

The Contractor may take days off at any time and at his/her option upon giving five (5) working days advance notice in writing or three (3) working days advance notice via e-mail or fax to the Company in order that the latter may abstain from charging the Contractor with new instructions. However, salary for each day-off is deducted from the Contractor's base salary.

دولة العراق الإسلامية / فيلق الصديق يُجهز على قيادي بمجالس الصحوة المزعومة بولاية جنوب بغداد

الحمد لله رب العالمين، والصلاة والسلام على نبينا محمد وعلى آله وصحبه والتابعين
أمّا بعد:

فقد تمكّنت ثلّة مؤمنة من فيلق الصدّيق من ألقاء القبض على أحد أبرز القياديين من أحفاد أبي رغال، من مجالس صحوات الردة والعمالة بناحية اللطيفية ضمن ولاية جنوب بغداد، بعد ضبط مكانه وزمان تواجده.

وبعد أن اعترف على نفسه وعصابته المجرمة بجرائم عديدة بحق العزّل الآمنين، وكيفية تعذيبهم وتقتيلهم واعتقالهم للمسلمين في المنطقة، كما وكشف عن المخططات الخبيثة التي يُريد أن يلتف بها المرتدون ضد المجاهدين بالتعاون المباشر مع القوات الصليبية الغازية. فقررت المحكمة الشرعية بدولة العراق الإسلامية " أعلى الله رايتها " فيه، بعد أن جمّعت كل القرائن والأدلة بأمره - وأمرُه معلوم من الكتاب والسنة بالأدلة الصريحة الصحيحة، كما أقرها علماء الإسلام من السلف الصالح رحمهم الله تعالى - فقُتل رمياً بالرصاص انتقاماً لكل مسلم ومسلمة آذوا في سبيل الله على أيدي هذا الزنديق وإخوانه، وذلك في يوم الأحد 9 ذي القعدة 1428 هـ الموافق 18 / 11 / 2007 م، ولله الحمد والمنة.

وتأتي هذه العَمَليات ضمن " خُطة الكَرامة " - غزوة حادي الشهداء " أبي عمر الكردي " رحمه الله تعالى، والتي أمر بها الشّيخ أبو عُمَر البغدادي " حفظه الله " - أمير المؤمنين بدولة العراق الإسلامية -.

2008-07-08 :: База ключевиков.

Открыл в админке базу ключевих слов. База собиралась самостоятельно прошлым летом. Содержит реальные запросы.
Открыта для тестирования. Если будет полезна то организуем её автоматическое обновление.

p.s. База собиралась не на DM. Ничьи ключевики палиться не будут.

2008-07-03 :: Расширение хостинга

Добавили ещё один сервер для хостинга дорвеев. Хороший конфиг, хорошие каналы, новые IP.

2008-06-30 :: Паблик аккаунты на фрихостингах.

Просьба высказать своё мнение в соответствующем топике на форуме
http://www.dmboard.com/viewtopic.php?f=3&t=593

2008-06-27 :: Последние изменения

1. В разделе Subdomains добавили две кнопки "Удалить сгенерированные с ошибкой." и "Перезапустить сгенерированные с ошибкой." соответственно одна удаляет дорвеи другая перезапускает.

n.runs has the following bugs pending and is aware of at least another DoS bug pending from a independent researcher. **Here is the list of pending McAfee bugs reported by n.runs :**

Incident ID: MFE-FW-20060227-01 - Date of receipt: February 27, 2006
Incident ID: MFE-ENG-20070605-01 - Date of receipt: June 5, 2007 (Possible Vuln #15)
Incident ID: MFE-ENG-20070607-01 - Date of receipt: June 7, 2007 (Possible Vuln #18)
Incident ID: MFE-ENG-20070608-01 - Date of receipt: June 7, 2007 (Possible Vuln #23)
Incident ID: MFE-ENG-20070608-02 - Date of receipt: June 7, 2007 (Possible Vuln #25)
Incident ID: MFE-ENG-20070615-01 - Date of receipt: June 15, 2007 (Possible Vuln #27)
Incident ID: MFE-ENG-20070615-02 - Date of receipt: June 15, 2007 (Possible Vuln #28)
Incident ID: MFE-ENG-20071111-01 - Date of receipt: November 11, 2007 (Possible Vuln #36)
Incident ID: MFE-ENG-20071111-02 - Date of receipt: November 11, 2007 (Possible Vuln #37)

Simply adding these pending reports to the graph gives the following result. n.runs believes this does indeed represent a trend, not to mention these only include problems reported by n.runs, not external researchers or entities nor internal penetration test efforts (which also pose a security threat during the exposure window but are never published).

OBL Crew

In the Name of Allah, Most Beneficent, Most Merciful

All Praise is for Allah, and may Prayers and Peace be upon the Messenger of Allah and upon his Family, Companions, and whoever is guided by his guidance.

JIHAD is the term used for struggle against evil. Electronic jihad or simply , E - JIHAD , is the jihad in cyberspace against all the propagandas and false allegations against the message of truth . E-JIHAD is the struggle in cyber space against all false and evil disciplines, ideology and forces of evil .

Have you ever think what is the need of army? To defend the freedom and liberty of a territory and defend it from the attacks of evil intruders. similarly , E-jihad is the battle in the field of cyber space, against all false believes, and to defend the truth against the false and mean propagandas and cults. It is as necessary as a regular army, to defend the ideological borders of a nation.

It is said, " **it is not the gun, it is man behind the gun** ". Do you ever think what makes a "man "? Nothing, but just the faith and ideology. Without faith and ideology, there is no r then have gun , but without any man .

The Muslims in general and the scholars in particular are commanded to call people to Islam, as Allah says (interpretation of the meaning):

"Let there arise out of you a group of people inviting to all that is good (Islam), enjoining Al-Ma'roof (i.e. Islamic Monotheism and all that Islam orders one to do) and forbidding Al-M disbelief and all that Islam has forbidden). And it is they who are the successful"[Aal 'Imraan 3:104]

The Prophet (peace and blessings of Allah be upon him) said: "Convey from me even if it is (only) one aayah." (Narrated by Al-Bukhaari, 3461)

Calling people to Allah is an important task and a glorious mission, because it means calling people to worship Allah alone. It means bringing them forth from darkness to the light, pl place of evil and truth in the place of falsehood. Hence whoever does this needs to have knowledge, understanding, patience, forbearance, gentleness and kindness. He needs to give c himself, and he needs to understand people's circumstances and habits.

Allah says (interpretation of the meaning):

"Invite (mankind, O Muhammad) to the way of your Lord (i.e. Islam) with wisdom (i.e. with the Divine Revelation and the Qur'aan) and fair preaching, and argue with them in a way th your Lord knows best who has gone astray from His path, and He is the Best Aware of those who are guided" [Al-Nahl 16:125]

Allah Subhanu Wata'Allah also orders us to do good deeds as :

" I swear by the time, Most surely man is in loss, Except those who believe and do good, and enjoin on each other truth, and enjoin on each other patience. " (AL-ASAR 103:1 - 103:

that means if we dont want not to be among losers , we have to follow the HOLY teachings of Allah as well as we have to try to spread the DIVINE TEACHINGS to every human being.

Very simple, just believe that you are a cyber soldier to defend your religion, to defend your faith, to defend your HOLY TEACHINGS OF HOLY QURA'AN AND SUNNAH, and you will **MUJAHID** " the very next moment.

After all , it is very inexpensive and time convenient and we dont have to go anywhere and not to spent anything. all we need is a PC connected to internet and it is available in nearly getting this message because you have already access to computer and internet .

omers willingly pay a premium. Ferrari gets a high price for its cars because loyal
ers feel no other automobile comes close to offering the product-service-membership
efit bundle that Ferrari does. Linneman and Stanton claim that there are "riches in
es" and believe that companies must "niche or be niched."[6] Blattberg and Deighton
n that "niches too small to be served profitably today will become viable as market-
efficiency improves."[7]

The low cost of setting up shop on the Internet has led to many small business start-
aiming to serve niches. Fifteen percent of the commercial Web sites with fewer than
mployees take in more than $100,000, and 2 percent even ring up more than $1 mil-
. The recipe for Internet niching success: Choose a hard-to-find product that cus-
iers do not need to see and touch. This "Webpreneur" followed the recipe with
nishing results:[8]

Ostrichesonline.com Whereas Internet giants like Amazon.com have yet to realize a profit, Steve Warrington is earning a six-figure income selling ostriches—and every product derived from them—online (*www.ostrichesonline.com*). Since the site was launched for next to nothing in 1996, Warrington's business has sold to over 10,000 clients in over 100 countries from a catalog of more than 7,000 ostrich-related products. Visitors to the site can buy ostrich meat, feathers, leather jackets, videos, eggshells, and subscribe to a newsletter devoted to ostriches.[9]

many markets today, niches are the norm. (See "Marketing Insight: Hidden Champi-

Wuhan Furuki security group is keen on a number of computer network security technology, is committed to the maintenance of internal security, Web server component of young people in order to secure technology-based professional and technical services team. The core team members have many years of the core systems, network applications, Web applications, hacking tools, network security theory, theory of the virus, data encryption and decryption, hacking and many other ways to have an in-depth research and experience. After years of constant exploration and unremitting efforts, accumulated rich experience in the development of network security and improve network security solutions, home network to take this to heart safety modest!
In recent years, the national security of the Internet encountered unprecedented challenges, "hackers" are full of all types of media, a website database of the game have been caused by the invasion nearly 1,000,000 U.S. dollars of economic losses, a hacker to visit a company to use the database server to steal 1,400,000 Customer credit card and debit card information and so on. At the same time, based on the rogue software on the Internet, software and various types of Trojan horse virus has also spread to the security of the Internet has brought serious harm. Baidu from the type of "hackers" search, 18,500,000 of the current data show that the proliferation of hacking, but also indicates our awareness of network security from the building to have a serious shortage, as our life for a growing dependence on the Internet The higher, cell phones, e-mail, Internet banking and so on, just do not pay attention will be subjected to heavy financial losses. Network security incidents occur frequently proved that the information network for the defense to be taken seriously, precisely because of the importance of the Internet, but also due to its vulnerability, so we will provide an Internet-based network security services platform for enterprises And personal resolve to worry about.

Highest & Fastest Payouts in the World!

Did you know that most pay-per install programs only pay for countries they want to? **SnapInstalls pays for every major country in the world!** We believe in paying the highest and realistic rate we can offer to our PARTNERS over the long-term. Depending on whether you're a software-developer, or web-master or a distributor, SnapInstalls believes in counting accurately and paying on time every pay period. Did you also know that other programs promote being the highest paying companies in the market, but when it comes to their reporting and getting paid, they cut back on the total amount of installs, so they don't have to pay you for what you delivered!!! Therefore, not only are exploiting faulty advertising, they are also reducing their actual payout by increasing the discrepancy between what you delivered and what they are counting. BUT NOT HERE AT SNAPINSTALL - WE BELIEVE IN PAYING YOU FOR EXACTLY WHAT YOU DELIVERED!

WestHammer©: Christmas Edition

Для того чтобы дать пользователю почуствовать всю мощь продукта WestHammer©: Christmas Edition существует возможность бесплатного теста.

Заявки на тест принимаются в ICQ: 511-609

P.S.
Сразу же обращаюсь к товарищам которые непременно будут стучать за тестом не в целях приобретения продукта, а в целях анализа сплойтов в него входящих:

Не тратьте мое и свое время!
Если Вас интересуют сплойты входящие в связку вы можете стукнуть в ту же самую ICQ и получить все то что вы могли бы спалить на тесте без лишней траты моего и Вашего времени!

Всех с наступающими праздниками и пусть они пройдут незабываемо!

1. Получить карту всех дорвеев с меткой: Exp делить на частей, показать часть Получить карту

Например, мы хотим поделитьссылки на три части, тогда указываем что частей 3. Грузим поочередно эти 3 части, сперва в поле "часть" указываем 0, грузим нулевую часть, потом указываем 1 грузим первую часть, потом указываем 2 и грузим последнюю часть карты.

2. Сгенерировать месагу для постинга спамитон:

Получить сообщение

например:
http://www.freehost1.com/links.html Best Links
http://www.freehost1.com/dsdlinks.html My Best Links
http://www.freehost2.com/dsdlinks.html Links
тоесть сперва ссылка, потом текст для ссылки.

3. Пропинговать sitemaps доров с меткой Exp в Google,Ask,Yahoo,Live Пропинговать Sitemaps

4. Сгенерировать месагу для постинга спамитон карт дорвеев с меткой: Exp Сгенерировать месагу для постинга спамитон

5. Сгенерировать карты дорвеев с меткой: Exp

так чтобы в одной карте было от 100 до 2500 ссылок и залить их на FTP

Заливать карты на: Все доступные фрихосты

Сгенерировать карты, закачать на FTP, создать месагу в Poster с линками карт *Запаситесь терпением*
